Formats		
“The Infinite Backlog”	‘The Infinite Backlog’ is the most recurrent format on Koala Karity Twitch channel. The goal is just to have a good time while going through the looonng Backlog of Koala Karity, games after games, in a chronological order.	
“Koala & Apex”	‘Apex Tuesday’ is the weekly session where Koala Karity focuses on the Battle Royale from Respawn Entertainment: Apex Legends. During this weekly session, Koala Karity will cover everything: the news, the Lore, the weekly Challenges, some Ranked games to get wrecked, and the Community will even have the right to choose which Legend we play.	
“Koalas’ Pick”	‘Community’s Pick’ is our way to celebrate the end of the week — happy Friday!! Every once in a while, the Community will pick up a game from our Backlog. And even if this game was at the bottom of our Backlog, it will become a priority and we will play it on Fridays & Saturdays.	
“Koala’s Sunday”	‘Koala’s Sunday’ is all about chilling, chatting with the Community, and playing games that are close to our heart or labelled “Discover/Just Try” in our Backlog.	
“New Leaf”	‘Koala’s Sunday’ is a new format launched to celebrate our Affiliate status! The goal is to bring more fresh content to the channel by focusing on the latest releases, instead of constantly playing games coming from the Backlog of Koala Karity. Join us to follow our adventures!	
Backlog of Games	Genre	Koala Karity’s comments
Apex Legends (on-going)	Shooter, Multiplayer, Battle Royale	If there should be only one Battle Royale, it would be this one! Koala Karity loves everything about it, so we will try to cover everything during our weekly sessions.
Starfield (on-going)	Adventure, Exploration, RPG	Everyone knows what Starfield is - by the creators of Skyrim and Fallout 4. And despite its flaws, Koala loves to go in space, discover new planets and systems, and do some quests!
Mortal Kombat 1 (on-going)	Fighting, Solo (Story mode)	Koala Karity is a fan of the crazy Lore behind this franchise. Even if our Koala’s paws prevent us from being a pro fighter online, we love the Story mode and the Solo content!
Jusant (on-going)	Indie, Exploration, Climbing	New, indie discovery towards the end of 2023 - it’s very refreshing and we love the concept about Climbing a mountain!
Red Dead Redemption 2	Action, Adventure	There is probably no better game to go on an Adventure and Koala Karity cannot wait to (re)discover the amazing wildness and skyboxes of this franchise!
Halo Infinite (Story mode)	Shooter, Solo	The legendary Halo series returns with the most expansive Master Chief campaign yet and a ground-breaking free to play multiplayer experience.
Below (Discover/Just Try)	Adventure, Roguelike/Roguelite	Koala Karity will do its best to avoid all the deadly traps. Let’s see if we will be able to reach the bottom of this mysterious cave...
Metro Exodus	Shooter, Solo	After having played all the previous Metro games, Koala Karity had to see what the franchise can offer now that it increased its scope.
Control (Discover/Just Try)	Action, Adventure	Koala Karity hesitated a long time before to add Control to the Backlog of games. Probably because we went through too many Third-Person Shooters. But we have plenty of games to go through first. And the amazing feedback about its level design convinced us to add it to the list.
Wolfenstein 2: The New Colossus	Shooter, Solo	The first game offered a very visceral experience, and Koala Karity wants to follow B.J. Blazkowicz another time in his fight against nazism.
Hand of Fate 2	Card, C-RPG, Strategy	Koala Karity spent a couple of hours on the first one but never completed it. The second one looks like an improved version, at every level. Perfect to dive into the great storytelling, cards after cards.
Owlboy	Platformer, Action, Adventure	Pixel art works half of the time on Koala Karity. It’s really not what sells a game to us. But the colours and the music in the Owlboy trailer definitely sold us this game!
TUNIC (Discover/Just Try)	Action, Adventure	Explore a land filled with lost legends, ancient powers, and ferocious monsters in TUNIC, an isometric action game about a small fox on a big adventure.
Hellblade	Action, Adventure	Koala Karity heard a lot of positive things about this narrative adventure and wants to learn more about the hidden message behind this awarded game.
Assassin’s Creed: Odyssey	Action, C-RPG	The last AC game that Koala Karity played was Black Flag. We all know that some franchises don’t renew themselves very often. So leaving the franchise aside for that long was perfect to be able to fully enjoy it again. Koala Karity sees Origins as the first Ubisoft attempt to increase the scope of its franchise, and sees Odyssey as the improvement of this “new” recipe.

Grip (Discover/Just Try)	Racing	Koala Karity remembers when these futuristic cars were racing through muddy roads on Playstation 1... We hope that Grip will be a good nostalgic trip.
Hitman 2	Stealth, Action	Since the 2016 reboot where IO Interactive decided to opt for an episodic model, we have followed Agent 47 in all his contracts across the world. Just like everyone else, Koala Karity loves the level design and all the possibilities it offers. If only we could dress up as a cute Koala...
DOOM Eternal	Shooter, Solo	Let's see if Koala Karity has what it takes to defeat these ugly ones from Hell — for the second time!
Gears Tactics	Tactical, XCOM-like	Having enjoyed XCOM 2, Koala Karity is keen to play the reinterpretation from Splash Damage & The Coalition.
Wasteland 3	RPG	Following the critically acclaimed 2014 Game of the Year winner Wasteland 2, the RPG series that pioneered the post-apocalyptic genre in video games returns with Wasteland 3.
Star Wars Jedi: Survivors	Action, Adventure	The story of Cal Kestis continues in STAR WARS Jedi: Survivor, a galaxy-spanning, third-person, action-adventure game.
Void Bastards (Discover/Just Try)	Shooter, Roguelike/Roguelite	Everything about its game design hooked Koala Karity up, and we cannot wait to try this one during a chilled out Sunday session.
Gato Roboto (Discover/Just Try)	Platformer, Action, Adventure	What's better than a cute cat turning into a robot?? Koala Karity will keep this lovely little game for a chilled out Sunday session.
The Outer Worlds (Discover/Just Try)	Action, C-RPG	Every player who had a blast playing Fallout 3 or Fallout: New Vegas, was keeping an eye on The Outer Worlds. After its release, it became clear that all of us got slightly too hyped... but nonetheless, it must deliver a couple of great dialogues and situations.
Scorn (Discover/Just Try)	Action, Adventure	Scorn is an atmospheric first-person horror adventure game set in a nightmarish universe of odd forms and somber tapestry.
Call of the Sea (Discover/Just Try)	Adventure, Puzzle	Koala Karity is very interested in this game, with its mix between Puzzle, enigmas, and colorful sceneries.
(DONE) Grounded	Survival, Multiplayer	Koala Karity is not into Survival games (apart from Subnautica 🥰), but we cannot wait to try this one! It just takes place in a garden, the only problem is that you are not bigger than an ant!
(DONE) Cuphead	Platformer, Die & Retry, Boss Rush	Koala Karity already started it couple of months ago but had to take a break because... you know, older games in the Backlog, etc. etc. ...
(DONE) Psychonauts 2	Action, Adventure	Kids with Psychic powers, literally entering people's mind?? Let's go!!
(DONE) Star Wars Jedi: Fallen Order	Action, Adventure	Koala Karity is not a massive fan of Souls-like originally, but still had a great time completing The Surge. For this second tentative with a Souls-like, we are happy to trust the passionate people at Repawn Entertainment and to prove that you can be a Koala and a Jedi.
(DONE) Mass Effect Andromeda	Action, C-RPG	Koala Karity has great memories about the original Mass Effect Trilogy, so it was just fair to give Andromeda a chance. And it was the perfect game to escape a little while confining.
(DONE) Ori and the Will of the Wisps	Platformer, Action, Adventure	The first game was full of poetry and challenges, and Koala Karity cannot wait to go back to Ori's forest!
(DONE) Mortal Kombat 11 (Story mode)	Fighting, Solo (Story mode)	Koala Karity is a fan of the crazy Lore behind this franchise. Even if our Koala's paws prevent us from being a pro fighter online, we didn't miss any Story mode and we cannot wait to jump into this madness again!
(DONE) High on Life	Shooter, Adventure, Action	Humanity is being threatened by an alien cartel who wants to use them as drugs. It's up to you to rescue and partner with charismatic, talking guns, take down Garmantuous and his gang, and save the world!
(DONE) Deathloop	Shooter, Solo (Story mode)	DEATHLOOP is a next-gen FPS from Arkane Lyon, the award-winning studio behind Dishonored. In DEATHLOOP, two rival assassins are trapped in a mysterious timeloop on the island of Blackreef, doomed to repeat the same day for eternity.
(DONE) Atomic Heart	Shooter, Solo (Story mode)	In a mad and sublime utopian world, take part in explosive encounters. Adapt your fighting style to each opponent, use your environment and upgrade your equipment to fulfill your mission. If you want to reach the truth, you'll have to pay in blood.
(DONE) Planet of Lana	Indie, Adventure, Platformer	Beautiful and peaceful side-scrolling platformer - it was a great experience, and the perfect way to chill between 2 sessions in Apex Legends!
(DONE) Dordogne	Indie, Adventure, Story-driven	Beautiful art-direction, and with a story taking place where my family comes from! It was a great and very touching experience, and the perfect way to chill between 2 sessions in Apex Legends!

KOALA KARITY LTD		
(DONE) Cocoon	Indie, Adventure, Puzzle	Beautiful art-direction, and with very smart puzzles! It was a great and very touching experience, and the perfect way to chill between 2 sessions in Apex Legends!
(DONE) Battlefield 2 (Story mode)	Shooter, Solo (Story mode)	Despite the controversy that fairly hit the game (mainly because of its economy), Koala Karity grew up with Star Wars and really wants to experience what a big budget can deliver in terms of Story mode in this universe. Having such a solo-experience within the Star Wars universe is rarer and rarer (until Fallen Order), and Koala Karity could not turn down the opportunity to play this one.
(DONE) The Gunk	Action, Adventure	The Gunk is an action-adventure game in which you play as Rani, part of our duo of gritty space haulers. As they're struggling to bring in funds, they chance upon an untouched planet brimming with life. They came in search of valuable resources, and it looks like they've hit the jackpot...
(DONE) Potion Craft	Potion Crafting	Potion Craft is an alchemist simulator where you physically interact with your tools and ingredients to brew potions. (PAUSED) Divinity: Original Sin 2	C-RPG	One of the best C-RPGs — if not THE best one! Everyone who did the first one knows why Koala Karity has to play the second one.
(PAUSED) Outer Wilds	Adventure	It's rare when a studio comes up with a very cool, innovative concept. And being a fan of everything taking place in space, Koala Karity cannot wait to jump in this 22-minute loop in order to discover this quirky world.
