

Koala Karity Ltd - Donation Report - 31st of Dec.24

KOALA KARITY LTD		Date: 31st Dec.24	Current Donation									
Donation Report		<p>For its fourth year, Koala Karity will keep the approach chosen last year. Indeed, we reduced the pace by focusing on 1 Charity during few months. This allowed us to donate more to 1 specific Charity and it made it easier for the Community to know which Charity is the current one -- as opposed to changing every 30 day during our first year.</p> <p>During this second half of the year, Koala Karity is supporting UNICEF (UK) and is ensuring that the donated money goes to the children impacted by the Gaza crisis. We already donated to the UNICEF last year. And as they have a special program to help all the children, it makes sense for us to extend our support to this Charity.</p> <p>It's easy to donate here (https://www.unicef.org.uk/donate/children-in-gaza-crisis-appeal/), and all the support will address urgent needs such as medicine, clean water and mental health support. UNICEF has a lot of experience with this type of situations. Already a lot of hospitals are no longer functional (even if they are used as shelters), so families need these resources urgently, to help the survivors and protect the children.</p> <p>During the first half of 2024, Koala Karity also donated to UNICEF (UK). Koala Karity will probably keep the Agenda of Charities open for the rest of 2025, this way we can address any urgent need with a better visibility. This is key to ensure our support makes sense.</p> <p>As always, you can find all the details about our donations on our website. Don't forget that Koala Karity is donating with its own resources, which means that the support from the Community is an additional amount that is being added on top of our own donation. Finally, also don't forget to support the other countries that are still going through difficult times 💖</p>										
Number:	#16											
Date:	31st of December 2024											
Amount:	£41.55											
Charities:	UNICEF (UK) for Children in Gaza Crisis											
Breakdown
